PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

NPIC J-0122 (5/64)

SUMMARY

This military installation is located 0.8 kilometers (km) NNW of Belokorovichi, covers approximately 500 acres, and is reported capable of housing 7,300 troops (based on 11 multistory barracks). It is served by the Olevsk-Korosten railroad, an all-weather road to Korosten, and connects by road with two MRBM sites.

The installation contains 105 buildings

as follows: 19 multistory barracks, eight multistory administration buildings, 31 storage buildings, 37 support buildings, a POL storage area with two tanks and four buildings, and a vehicle maintenance area containing six buildings and a vehicle park. A small fenced area near the south end contains four additional buildings, possibly for officers quarters.

DESCRIPTION OF INSTALLATION

Railroad Service

A spur from the Olevsk-Korosten railroad enters the installation near the SE end, makes a 180-degree turn at the north end, and appears to terminate near the storage buildings.

Road Service

A road from the installation connects with an all-weather road to Korosten.

Administrative and Troop Housing Area

Area D1 contains seven multistory administration buildings, 19 multistory barracks and 21 support buildings.

General Storage Area

Area E1 contains one multistory administration building, 31 storage buildings and 14 support buildings.

POL Storage Area

Area G1 contains four buildings and two vertical tanks, each an estimated 60 feet in height, and 80 and 70 feet respectively in diameter.

Equipment Storage/Maintenance Area

Area J1 contains a vehicle park, 850 by 700 feet, four possible garages, two 200 by 70 feet, one 150 by 50 feet and one 135 by 50 feet, and two possible maintenance buildings, 85 by 30 feet and 50 by 30 feet.
